

## Jungheinrich at Industrial Transformation APAC 2019

- Live showcase of Automated Guided Vehicle (AGV)
- First electric reach truck with integrated lithium-ion battery
- High performance electric forklifts
- Lithium-ion powered electric pedestrian truck from Ameise range

Singapore: Jungheinrich will be presenting innovative products and solutions for the challenges of Intralogistics 4.0 at the tradeshow Industrial Transformation Asia-Pacific 2019 from 22<sup>nd</sup> to 24<sup>th</sup> October 2019. At booth 1C06, the intralogistics expert Jungheinrich will display innovative, safe and efficient solutions to international industry professionals.

### Live showcase of Jungheinrich Automated Guided Vehicle (AGV)

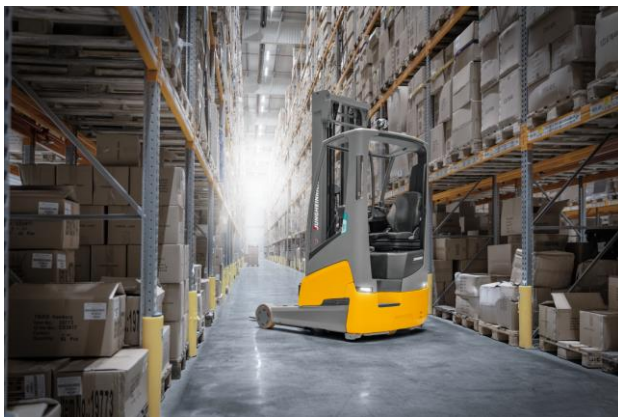

Jungheinrich will be presenting a state-of-the-art automation showcase with its reliable AGV – the EKS 215a vertical order picker. Jungheinrich AGV solutions are ideal for consistent and recurring internal transport tasks. Being able to integrate seamlessly into existing workflows, Jungheinrich AGV solutions lay the foundation for enhanced efficiency and optimised processes.

Jungheinrich is the perfect partner for planning and implementing AGV systems as we deliver everything from a single source.

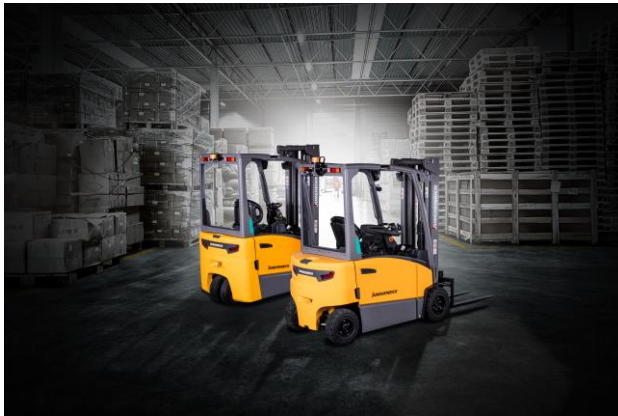

**Discover Jungheinrich world of lithium-ion technology with the first electric reach truck with integrated lithium-ion battery**

Jungheinrich will also be displaying its first electric reach truck with integrated lithium-ion battery – the ETV 216i. The award-winning Jungheinrich ETV 216i offers maximum warehouse performance and fast interim charging during breaks for 24/7 operations. Ultra-compact, high residual load capacity and fast lifting speed – the Jungheinrich ETV 216i ensures high throughput performance even in compact and narrow warehouse surroundings.

### **Jungheinrich electric forklifts that offer greater safety and efficiency**

The Jungheinrich EFG M series of forklifts is specially designed for powerful performance and maximum manoeuvrability for fast operations in limited spaces. With both side-battery exchange and vertical battery exchange as standard, the EFG M series allows the exchange of battery quickly and easily, even with just a pallet truck. The Jungheinrich EFG M series is also available with both superior lithium-ion technology and proven lead-acid battery technology.

### **Compact electric pedestrian truck powered by lithium-ion technology**

Be acquainted with our Ameise truck range and witness the power of our compact Ameise electric pedestrian truck – Ameise CBD 12W-Li! Thanks to its compact design, the Ameise CBD 12W-Li with lithium-ion battery offers highest level of productivity at a bargain.

### **Jungheinrich at ITAP**

Date: 22<sup>nd</sup> – 24<sup>th</sup> Oct 2019

Time: 9am – 6pm

Venue: Singapore Expo, Hall 1 – **booth 1C06**
